

Kiosk Solutions as simple as w-e-b.

Your web application...

turned  
into

...your kiosk application.  
Simple.

Your web application + KiOWare<sup>®</sup> Lite = Your kiosk application.

KiOWare<sup>®</sup> Lite gives you the ability to “Kiosk-ize” your web application without additional reprogramming. You create your application with easy-to-use standard web development tools, so there is no need to learn a new or proprietary development platform.

KiOWare<sup>®</sup> Lite provides a secure browser that can be locked onto a specific URL, keeping the user locked onto the designated site by hiding browser controls from view.

KiOWare<sup>®</sup> Lite also offers...

- + Browser/OS Lockdown
- + Toolbar/ Scrollbars Optional
- + Toolbar Skins
- + Keyboard Filtering
- + Integrated Browser Error Handling
- + Attract Screen Management
- + User Session Management
- + Automatically Run Logoff Script
- + Popup Window Control
- + Domain/Page List Blocking
- + Remote XML Configuration

## Kiosk Solutions as simple as w-e-b.

With KioWare<sup>®</sup> Lite anything that can be run on Internet Explorer can be put onto a kiosk. This feature makes KioWare<sup>®</sup> Lite universal in its applications.
